

Syed Adeeb Ahmad

Senior Frontend Engineer

syed.adeeb786@gmail.com | +91 8318831235 | www.linkedin.com/in/s-a-ahmad | Noida | Immediate Joiner

PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience building scalable, high-performance web applications using React.js, Next.js, JavaScript, and TypeScript. Experienced in developing enterprise-grade frontend architectures, reusable component systems, and responsive user interfaces across fintech, e-commerce, and EdTech domains. Skilled in performance optimization, microfrontend architecture, API integrations, frontend scalability, and modern UI engineering practices. Strong expertise in React ecosystem tools including Redux, React Query, Tailwind CSS, Material UI, and modern frontend workflows involving CI/CD, SEO optimization, accessibility standards, and unit testing.

TECHNICAL SKILLS

- Programming Languages:** JavaScript (ES6+), TypeScript
- Frontend Technologies:** React.js, Next.js, Redux, Redux Toolkit, React Query, React Hook Form, React Window
- UI & Styling:** HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Responsive Design
- Testing & Performance:** Jest, React Testing Library, Lighthouse, Web Vitals (LCP, CLS, FCP), Lazy Loading, Code Splitting
- APIs & Architecture:** REST APIs, GraphQL, JSON, Microfrontend Architecture, Server-Side Rendering SSR, SSG, ISR (Next.js)
- Tools & Platforms:** Git, GitHub, Jira, Vite, Postman, Figma, Chrome DevTools
- Development Practices:** Agile/Scrum, CI/CD Workflows, SEO & Performance Optimization, Accessibility, Localization, i18n
- AI-Assisted Tools:** GitHub Copilot, ChatGPT, Cursor IDE (code refactoring, debugging, testing & optimization)

WORK EXPERIENCE

- Nagarro Software PVT. LTD.**

Associate Staff Engineer

 - Contributed to the development of enterprise-scale frontend applications using React.js, Next.js, TypeScript, and microfrontend architecture for fintech and e-commerce platforms.
 - Improved frontend performance using code splitting, lazy loading, and rendering optimizations, enhancing application responsiveness and Core Web Vitals metrics including LCP, CLS, and FCP.
 - Mentored junior developers, guiding them through best practices, code reviews, and project workflows to help them grow professionally.
 - Implemented Redux-based global state management and optimized frontend data flows for complex user workflows and dynamic business requirements.
 - Participated in frontend architecture discussions, component standardization, and performance optimization initiatives.
 - Collaborated with backend, QA, and product teams in Agile development cycles to deliver high-quality production releases.
 - Utilized AI-assisted development tools including ChatGPT and GitHub Copilot for debugging, code refactoring, and improving development productivity.

05/2022 – 12/2025

Noida
- INCEDO INC.**

Software Engineer

 - Developed modular & reusable React components and applied performance optimizations to improve page load efficiency.
 - Built responsive user interfaces and implemented dynamic theming to improve user experience across multiple devices and screen sizes.
 - Optimized frontend performance using lazy loading and Redux-based state management to reduce unnecessary re-renders.

08/2021 – 04/2022

Gurugram

MAGIC SOFTWARE INC.

Senior Software Engineer

01/2021 – 07/2021

Noida

- Developed interactive frontend Apps. for an EdTech platform using React.js and modern SCSS.
- Built reusable UI components and responsive layouts to improve usability across all devices.
- Implemented WCAG accessibility standards & ensured cross-browser compatibility for all users.

SHL INDIA PVT. LTD.

Software Engineer

02/2020 – 11/2020

Gurugram

- Developed responsive modules for an online assessment App using React.js & TypeScript
- Collaborated with UI/UX designers to convert wireframes into pixel-perfect, user interfaces.
- Integrated RESTful APIs and managed asynchronous data flows using Axios and Redux.

VINOVE SOFTWARE & SERVICES

Software Developer

08/2018 – 01/2020

Noida

- Built dashboards and UI modules for global e-commerce and event management platforms.
- Built reusable React components to streamline development workflows and improve UI.
- Implemented internationalization features to support multi-region user experiences.

EDUCATION

PG-Diploma in Advanced Computing (PG-DAC)

Centre for Development of Advanced Computing (C-DAC)

08/2017 – 02/2018

Bangalore

Bachelor of Technology – Computer Science & Engineering

Integral University

07/2013 – 05/2017

Lucknow

PROJECTS

NTCA Secure File Sharing App.

React.js | TypeScript | Redux | Material UI

- Designed and developed a secure document exchange app with role-based access control (Admin, Sub-Admin, End User).
- Implemented invitation-only signup, account lock feature, location tracking using Geolocation API for enhanced security.
- Strengthened application security with HTTP-only cookies, strict origin policies & access/refresh tokens to prevent XSS and CSRF attacks.
- Optimized performance by rendering large datasets with React Window virtual lists.
- Delivered a solution focused on data protection and compliance, ensuring client confidence in secure collaboration.

Amway E-Commerce Platform

React.js | TypeScript | Redux | Microfrontend Architecture

- Contributed to the development of a large-scale e-commerce platform using React.js and microfrontend architecture.
- Developed reusable and independently deployable UI modules to support scalable frontend delivery.
- Worked on frontend performance optimization and responsive user experiences for enterprise-level workflows.

HDFC SKY Trading Platform

React.js | JavaScript | Redux | Material UI

- Contributed to development for HDFC SKY, a unified trading platform for stocks, mutual funds, and investment services.
- Developed reusable frontend components and integrated business-critical REST APIs.
- Improved responsive layouts and user workflows using Material UI and modern frontend development practices.

One Muthoot Web Application/Admin Panel

Next.js | JavaScript | Tailwind CSS | Redux

- Developed admin dashboards and management interfaces for loan products, blogs, and user operations.
- Built reusable layouts and implemented dynamic routing using Next.js.
- Improved UI consistency and frontend maintainability using Tailwind CSS and component-based architecture.

Jeeves Admin Control Panel

React.js | TypeScript | Redux | Material UI

- Developed admin tools for managing users, catalogs, files, roles, and advertising campaigns.
- Built responsive UI layouts and reusable frontend modules using React.js and Material UI.
- Collaborated with mobile and backend teams for API integration and analytics synchronization.
