Syed Adeeb Ahmad

Senior Full Stack Engineer | React.js | Next.js | Node.js | Generative AI & LLM Integration

syed.adeeb786@gmail.com | 8318831235 | LinkedIn Profile | Portfolio : syed-dev.vercel.app | Noida

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 7+ years of experience building secure, & high-performance web applications using React.js, Next.js, Node.js, Express.js, TypeScript, and MongoDB. Experienced in backend API development, RESTful services, authentication & authorization, database integration, and enterprise application architecture across FinTech, e-commerce, and EdTech domains. Hands-on experience building AI-powered applications using Generative AI, LLM integrations, Google Gemini, and Vercel AI SDK, including context-aware conversational AI with real-time streaming. Skilled in designing end-to-end solutions, optimizing application performance, and delivering maintainable, production-ready applications.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, Zustand, TanStack (React) Query, HTML5, CSS3, Tailwind CSS, Material UI

Backend: Node.js, Express.js, JWT Authentication, OAuth2, Passport.js, Authorization (RBAC), Middlewares, Socket.io

Generative AI & LLMs: Generative AI, LLM Integration, Google Gemini/OpenAI APIs, Vercel AI SDK, Prompt & Context Engineering, Conversational AI, Streaming AI Responses

Databases & Caching: MongoDB, Mongoose, Redis

APIs & Architecture: REST APIs, GraphQL, Microfrontend, Server-Side Rendering (SSR, SSG, ISR)

Testing & Performance: Jest, React Testing Library, Lighthouse, Web Vitals (LCP, CLS, INP), Lazy Loading, Code Splitting

Tools & Platforms: Git, GitHub, Jira, Vite, Postman, Docker, Nginx, CI/CD

Development Practices: Agile/Scrum, SEO & Performance Optimization, Accessibility (WCAG/ARIA), Localization, i18n

AI-Assisted Tools: GitHub Copilot, ChatGPT, Cursor IDE (Code Generation, Refactoring, Debugging, Testing & Optimization)

WORK EXPERIENCE

Nagarro Software PVT. LTD. 05/2022 – 02/2026

Associate Staff Engineer Noida

- Developed enterprise-scale applications using React.js, Next.js, Node.js, TypeScript, and microfrontend architecture across FinTech and e-commerce domains.
- Optimized application performance through code splitting, lazy loading, and rendering improvements, enhancing responsiveness and Core Web Vitals (LCP, CLS, FCP).
- Developed Node.js/Express.js services for business workflows, authentication, and secure API integrations, while managing complex frontend state using Redux.
- Contributed to application architecture, reusable component standardization, and code quality initiatives through technical discussions and reviews.
- Mentored junior developers through code reviews and best practices, collaborating with cross-functional teams in Agile environments to deliver production releases.
- Leveraged AI-assisted tools, including ChatGPT and GitHub Copilot, for debugging, refactoring, testing, and improving development productivity.

INCEDO INC. 08/2021 – 04/2022

Software Engineer Gurugram

- Developed reusable React components, applied performance optimizations, improve page load.
- Built responsive UI,implemented dynamic themin improve user experience across all devices.

- Optimized frontend performance using lazy loading, & Redux-based state management

MAGIC SOFTWARE INC. 01/2021 – 07/2021

Senior Software Engineer Noida

- Developed interactive frontend Apps. for an EdTech platform using React.js and modern SCSS.
- Built reusable UI components and responsive layouts to improve usability across all devices.
- Implemented WCAG accessibility standards & ensured cross-browser compatibility for all users.

SHL INDIA PVT. LTD. 02/2020 – 11/2020

Software Engineer Gurugram

- Developed responsive modules for an online assessment App using React.js & TypeScript
- Collaborated with UI/UX designers to convert wireframes into pixel-perfect, user interfaces.
- Integrated RESTful APIs and managed asynchronous data flows using Axios and Redux.

VINOVE SOFTWARE & SERVICES 08/2018 – 01/2020

Software Developer Noida

- Built dashboards and UI modules for global e-commerce and event management platforms.
- Built reusable React components to streamline development workflows and improve UI.
- Implemented internationalization features to support multi-region user experiences.

PROJECTS

Aruba AI | Generative AI-Powered Conversational Assistant

Next.js | TypeScript | Google Gemini | Vercel AI SDK | Tailwind CSS

- Architected and developed an LLM-powered conversational AI assistant using Google Gemini and Vercel AI SDK, integrated into a Next.js portfolio application.
- Implemented real-time streaming responses, conversation history management, and context-aware interactions through structured knowledge injection and prompt engineering.
- Developed server-side AI API endpoints with request validation, message limits, and secure API key management to ensure controlled LLM interactions.
- Built a responsive, interactive chat interface with seamless AI integration, delivering personalized answers about professional experience, technical skills, and projects.

Personal Developer Portfolio — Next.js Web Application

Next.js | TypeScript | Tailwind CSS | Vercel

- Architected and developed a modern, responsive portfolio using Next.js App Router, TypeScript, and reusable React components, featuring interactive UI and dynamic theming.
- Integrated an LLM-powered AI assistant, interactive animations, dark/light themes, and a serverless contact API, with automated deployment through Vercel.
- Implemented SEO best practices & accessibility standards (WCAG/ARIA) to enhance discoverability and usability.
- Optimized application performance using component-level optimizations, lazy loading, and modern frontend practices,

NTCA Secure File Sharing App.

React.js | Node.js | TypeScript | Redux | Material UI

- Designed and developed a secure document exchange app with role-based access control (Admin, Sub-Admin, End User).
- Implemented invitation-only signup, account lock feature, location tracking using Geolocation API for enhanced security.
- Strengthened application security with HTTP-only cookies, strict origin policies & access/refresh tokens to prevent XSS and CSRF attacks.
- Optimized performance by rendering large datasets with React Window virtual lists.
- Delivered a solution focused on data protection and compliance, ensuring client confidence in secure collaboration.

Amway E-Commerce Platform

React.js | TypeScript | Redux | Microfrontend Architecture

- Contributed to the development of a large-scale e-commerce platform using React.js and microfrontend architecture.

- Developed reusable and independently deployable UI modules to support scalable frontend delivery.
- Worked on frontend performance optimization and responsive user experiences for enterprise-level workflows.

HDFC SKY Trading Platform

React.js | JavaScript | Redux | Material UI

- Contributed to development for HDFC SKY, a unified trading platform for stocks, mutual funds, and investment services.
- Developed reusable frontend components and integrated business-critical REST APIs.
- Improved responsive layouts and user workflows using Material UI and modern frontend development practices.

One Muthoot Web Application/Admin Panel

Next.js | Node.js | JavaScript | Tailwind CSS | Redux

- Developed admin dashboards and management interfaces for loan products, blogs, and user operations.
- Built reusable layouts and implemented dynamic routing using Next.js.
- Improved UI consistency and frontend maintainability using Tailwind CSS and component-based architecture.

EDUCATION

PG-Diploma in Advanced Computing (PG-DAC) 08/2017 – 02/2018

Centre for Development of Advanced Computing (C-DAC) Bangalore

Bachelor of Technology – Computer Science & Engineering 07/2013 – 05/2017

Integral University Lucknow
